10:45 AM	Q&A and Concluding Remarks

Every international employer needs to address its own compensation and benefits plans for local nationals, ex-patriots and TCNs. Our discussion will focus on success stories in actively managing these plans for multi-location employers. CFOs and HR directors are increasingly coordinating these plans and realizing economies of scale and employee relations enhancements.

Our expert speakers will identify for you a number of specific strategies as take-aways to help your company integrate your international compensation and benefits plans.
